Firefighters Special Equipment and Precautions

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA-NIOSH (approved or equivalent) and full protective gear.

Section 6: Accidental Release Measures

Personal precautions: Use personal protective equipment. Remove all sources of ignition. Evacuate personnel to safe areas. Keep people away from the upwind of spill/leak. Pay attention to flashback. Take precautionary measures against static discharges.

Environmental precautions: Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Do not flush into surface water or sanitary sewer system. Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Methods for containment: Prevent further leakage or spillage if safe to do so. Methods of cleaning up: Dam up,

Use protective equipment. Cover liquid spill with sand, earth or other noncombustible absorbent material. Take up mechanically and collect in suitable container for disposal. Clean contaminated surface thoroughly. Soak up with inert absorbent material. Pick up and transfer to properly labeled containers. Take precautionary measures against static discharges.

Section 7: Handling and Storage

Advice on safe handling: Use local exhaust ventilation. All equipment used when handling the product must be grounded. Keep away from heat, hot surfaces, sparks, open flames and other ignition source. No smoking. Wear personal protective equipment/face protection. Do not breathe dust/fume/gas/mist/vapors/spray. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Technical measures/storage conditions: Keep away from heat and sources of ignition. Keep containers tightly closed in a cool, well ventilated place. Keep away from heat. Keep in properly labeled containers.
