Section 4: First-Aid Measures

| | |
|------------------------------------|---|
| Inhalation | Move to fresh air. If not breathing give artificial respiration. If breathing is difficult, give oxygen. |
| Skin Contact | Flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. Call a physician. |
| Eye Contact | Flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Call a physician. |
| Ingestion | Wash out mouth with water provided person is conscious. Call a physician immediately. |
| Symptoms/Effects | |
| Acute | Cough, shortness of breath, headache, nausea, vomiting, sweating |
| Delayed | Cough, shortness of breath, headache, nausea, vomiting, sweating |
| Immediate Medical Attention | |
| Not available. | |

Section 5: Fire-Fighting Measures**Suitable Extinguishing Media**

Water spray. Carbon Dioxide, dry chemical powder, or appropriate foam.

Unsuitable Extinguishing Media

Not available.

Products of Combustion

Carbon oxides, Nitrogen oxides, Hydrogen chloride gas

Firefighters Special Equipment and Precautions

Wear self-contained breathing apparatus for firefighting if necessary.

Section 6: Accidental Release Measures

Person-related safety precautions: Wear self-contained breathing apparatus, rubber boots, and heavy rubber gloves. Environment precautions: Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Methods and materials for containment and cleaning up: Sweep up, place in a bag and hold for waste disposal. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.

Section 7: Handling and Storage

Information for safe handling: Ensure good ventilation at the workshop and store in cool, dry place in tightly closed containers. Conditions for safe storage, including any incompatibilities: Information about storage in one common storage facility: packed in alum foil in vacuum; Further information about storage conditions: Store in cool, dry condition and keep from light.

Section 8: Exposure Controls/Personal Protection

| | |
|-----------------------------|--|
| Exposure Limits | Not available. |
| Engineering Controls | Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. |

Personal Protection

Eye/face protection: Face shield and safety glasses use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Skin protection: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with the product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Body protection: Complete suit protecting against chemicals, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Respirator protection: Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU)/ Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Control of environment exposure: Prevent further leakage or spillage if safe to do so. Do not let product enter drains.
