

PHARMACY STUDENT Scholarship Contest

PCCA Institute's annual scholarship contest is back and better than ever! This is your opportunity to share your vision for compounding pharmacy with hundreds of pharmacists and potential employers.

Enter for a chance to engage with compounding pharmacists from all over the world at **both** PCCA's International Seminar, October 26-29, 2022, in Houston, Texas, **and** our ACT Legislative Conference 2023 in Washington, D.C.! The winner of the Scholarship Contest will deliver a 10-minute main-stage presentation on the last day of International Seminar on the topic:

“ **How will you be the pharmacist that changes our compounding pharmacy profession for the better?** ”

How to Enter

- Complete an online application that outlines the main ideas of your **10-minute stage presentation**. In 150 words or less, your bulleted outline should answer the following:
 - » How will you be the pharmacist that changes our compounding pharmacy profession for the better?
 - » Why do you want to go into compounding for your career?
 - » In what areas of compounding are changes needed? Why?
- Submit a 2-minute video pitch previewing your presentation introduction — what you'll actually say on-stage to grab the audience's attention. This should support the content you're submitting in your written application. Be sure to demonstrate your presentation skills and ability to engage with an audience, and don't forget to introduce yourself and where you attend pharmacy school.
- Deadline for application and video pitch submission: **Wednesday, August 31, 2022**

Apply here: bit.ly/ISTX22-Scholarship

Your application and video must be submitted at the same time. The best practice is to write and save your answers to the application questions in a separate document. Then, copy/paste your answers into the application when you are ready to submit your application and video.

PCCA's annual International Seminar is where compounders connect with the world's largest community of compounding pharmacists and leading experts on clinical updates, business strategies for pharmacies, and technical breakthroughs. pccainternationalseminar.com

ACT Legislative Conference

PCCA's annual ACT (Action, Commitment, Time) Legislative Conference is where compounders personally meet with their federal lawmakers to communicate concerns about patient access to compounded medications.

Need some inspiration?

Check out the recording (bit.ly/ISTX21-Ryan) of last year's winning presentation by **Ryan Waldschmidt**, 2022 PharmD Candidate, Ohio Northern University!
